

## Day 2/Assignment-1

```
//Program to search for a particular character in a string
```

```
let name="jeevitha";
```

```
console.log(name.includes("e"));
```

```
//Program to convert minutes to seconds
```

```
let Minutes=4;
```

```
let MinutesToSeconds = 4*60;
```

```
console.log(MinutesToSeconds);
```

```
//Program to search for a element in a array of strings
```

```
let data=["pen","pencil","book","bag"];
```

```
console.log(data.includes("book"));
```

```
//Program to display only elements containing 'a' in them from a array
```

```
let data1=["pen","pencil","book","bag"];
```

```
for(let i=0;i<data1.length;i++)
```

```
{
```

```
    if(data1[i].indexOf("a")!==-1)
```

```
    {
```

```
        console.log(data1[i]);
```

```
    }
```

```
}
```

```
//Print an array in reverse order
```

```
let data2=["pen","pencil","book","bag"];
```

```
console.log(data2.reverse());
```

Output:
